Information Services International-Dentsu, Ltd.

ISID Acquires Cloud Security International Standard ISO/IEC 27017 Certification

Information Services International-Dentsu, Ltd. (Head office: Minato-ku, Tokyo; President and CEO: Setsuo Kamai; “ISID”) acquired cloud security international standard ISO/IEC 27017: 2015* certification for the management maintenance operations of the consolidated accounting cloud service “STRAVIS on CLOUDiS” operational management service “STRAVIS PAS” and integrated cloud HCM solutions “POSITIVE on CLOUDiS” and “STAFFBRAIN on CLOUDiS” on November 6, 2017.

ISO/IEC 27017: 2015 is an international standard published in 2015 by the International Organization for Standardization (ISO) certifying engagement in specific information security countermeasures applicable to the provision and use of cloud services.

ISID has promoted cloud support for various solutions to meet diversifying client needs. We provide a variety of cloud services, including cloud-based proprietary developed package software consolidated solution “STRAVIS” and integrated HCM solutions “POSITIVE” and “STAFFBRAIN.” The acquisition of this certification bolsters ongoing enhancements for the maintenance and operation of information security management measures making services safer and more efficient.

Going forward, ISID will strive to create environments enabling the safe and secure utilization of cloud services, promote further utilization of the cloud and contribute to the development of client corporations and society.

ISO/IEC27017: 2015 Certification Overview

About “STRAVIS on CLOUDiS”

“STRAVIS” is a consolidated accounting solution leveraging ISID’s accumulated know-how and experience with resolving corporate group consolidated accounting operations issues developed under the basic concept of true integration of consolidated legal financial accounting and consolidated managerial accounting. It has been used by more than 500 corporate groups up to now. “STRAVIS” is compatible with IFRS and provides accurate solutions for a variety of issues, including group business management requests and early account settlement. From consolidated management data collection operations from subsidiaries, to consolidated legal and managerial settlement figures, we support general consolidated accounting operations related to group management. “STRAVIS on CLOUDiS” is a cloud-based STRAVIS service deploying two products: the “STRAVIS Platform Administration Service (PAS)” administrating server operations and “BCP Options” supporting business continuity in the event of an emergency.

About “POSITIVE on CLOUDiS” and “STAFFBRAIN on CLOUDiS”

“POSITIVE” is an integrated Human Capital Management (HCM) solution for realizing advanced group management that supports strategic human asset management globally at the group level. This package is for major corporations and encompasses a wide range of functions including talent management and mobile support in addition to personnel, salary, and employment management, which are major functions of mission critical human resource systems. It is also widely used as a backbone system for personnel sharing services. “STAFFBRAIN” is a solution for mid-sized companies for the realization of low-cost integrated management of personnel, salaries and employment. ISID’s HCM solution, the core of “POSITIVE” and “STAFFBRAIN,” has a strong reputation with companies of varying scale in a wide range of industries, having been introduced at over 2,000 companies. “POSITIVE on CLOUDiS” and “STAFFBRAIN on CLOUDiS” are services providing “POSITIVE” and “STAFFBRAIN” in the cloud. This provides a mechanism enabling clients to devote their attention to their traditional core business by responding to legal reforms in accordance with the operation of personnel systems and reducing the burden of infrastructure operations.
