ISID Announces Award-Winning Service at FIBC2018 Financial Innovation Business Conference

“justInCase” and “Opportunity Network” Won Grand Prize

Information Services International-Dentsu, Ltd. (TOKYO:4812) (Head office: Minato-ku, Tokyo; President & CEO: Setsuo Kamai; “ISID”) decided on the award-winners, including the winners of the Grand Prize, from among the 26 cutting-edge financial services presented at the FIBC2018 Financial Innovation Business Conference “FIBC2018”, held in Tokyo on March 2. “justInCase” and “Opportunity Network” won the Grand Prize.

FIBC is an event specializing in the FinTech field providing a communication platform linking FinTech startups, leading corporations and other businesses, venture capital firms and media professionals through a pitch contest and networking.

With the support by well-known overseas accelerators and incubation centers, such as Startupbootcamp, Lattice80, Stone & Chalk, SuperCharger and various embassies, the event had 26 participants of the pitch contest. The half of them was from overseas, and all presentations were given in English. This year’s event was distinguished by a host of novel and innovative services: technologies such as insurance, investment, loan, money transfer, authentication, and security.

The Grand Prize was awarded for the service that earned the highest scores, which the judging panel determined in five categories: “impact on financial markets,” “quality of the management team,” “innovativeness of the business model,” “business growth potential” and “possibility of becoming a global service.” The award-winning service is as follows.
